Downtown is the heart and soul of a community.

Main Street is more than the name of a street.

We all know where our Main Streets are, but do we know *what* they are and *why* they matter? Whether they are named First Avenue or Court Street or Martin Luther King Boulevard, what they represent is universal. Main Street is the economic engine, the big stage, the core of the community. Our Main Streets tell us who we are and who we were, and how the past has shaped us. We do not go to bland suburbs or enclosed shopping malls to learn about our past, explore our culture, or discover our identity. Our Main Streets are the places of shared memory where people still come together to live, work, and play.

So what is Main Street? The phrase has been used to describe everything from our nostalgic past to our

current economic woes, but when we talk about Main Street®, we are thinking of real places doing real work to revitalize their economies and preserve their character. Specifically, Main Street® is three things: a proven strategy for revitalization, a powerful network of linked communities, and a national and state level support program that leads the field in downtown revitalization.

Main Street Beatrice.

A thriving downtown signifies a thriving community. Downtown revitalization is an important necessity for a community because it can increase the tax base by converting under-utilized or unoccupied buildings into revenue-producing assets. This district revitalization also creates new jobs, can attract new residents to the area, will better accommodate local tourism, and will honor the district's unique historic character.

Main Street Beatrice is a volunteer-based organization structured under a 4-Point Approach that encompasses Economic Restructuring, Design, Promotion, and Organization. Main Street Beatrice is funded by our local contributing partners, by the City of Beatrice, and by fundraising activities.
